

Please DO NOT allow any changes to the Indiana "NO Call" list that would allow banks or any other group to begin calling. If these intrusions were anything but SALES ATTEMPTS it would be different, but we are in no further need of sales contacts from ANY business. From abuse of emails, that have lead many companies and individuals to stop using it as a tool, to the hundreds of millions of pieces of

"junk mail" sent daily, enough is enough. The intrusions are an UNWELCOME invasion of privacy and the violation of common courtesy. PLEASE DO NOT allow the banks or any other group to intrude by changing the Indiana DO NOT CALL law. THANK YOU
